

# 2026 National PFAS Conference

June 8-10, 2026  
Tucson, AZ

## Sponsorship Guide

*We appreciate your support to  
make this a successful event*

## WHY SPONSOR THE NATIONAL PFAS CONFERENCE?

The National PFAS Conference Organizing Committee is pleased to invite you to be one of the sponsors for our upcoming 5th National PFAS Conference. The conference will be held on the campus of the University of Arizona in Tucson, AZ on **June 8-10, 2026**.

As we all work to mitigate the impacts of PFAS in our communities, it is essential to support this national event. The funds we raise will cover general operating costs and travel costs for impacted community members and speakers to attend the conference. The organizing committee is dedicated to developing an effective and engaging event for as many researchers and community members as possible.

Your generous sponsorship for this event allows opportunities for collaboration, advocacy, and resource sharing. As a sponsor, you will be able to engage and interact with researchers, community partners, and government officials working at the many varied sites affected by these hazardous substances across the country and around the world.

We appreciate your support and look forward to working with you to make this conference a success.

## SPONSORSHIP ACCEPTANCE STANDARDS

Sponsorship gifts for the 5th National PFAS Conference (the Conference) will be evaluated to ensure alignment with the PFAS conference mission and values. The PFAS Conference reserves the right to refuse any contribution.

The following guidelines will be used to evaluate prospective gifts:

1. Gifts must be consistent with the mission, goals, objectives and services of the Conference including clean production, healthy communities, environmental justice, and a sustainable future.
2. The Conference may take into consideration a corporation's green outreach efforts, human rights record, environmental, trade and labor practices, and other responsible initiatives during the review process.

Prospective gifts from the following industries will be closely scrutinized and require committee approval:

1. Manufacturing of products that may contain PFAS
2. Production and manufacture of PFAS chemicals
3. Management of PFAS waste
4. Other industries as necessary

The PFAS Conference will not accept a sponsorship from any corporation that is:

1. Engaged in any significant activities that are in direct conflict with the PFAS Conference's objectives or activities to protect the environment, scientific integrity, and human health.
2. Currently involved in litigation against any members of the organizing committee of the PFAS Conference.

The use of the PFAS Conference's logo by a corporate partner is restricted to appropriate uses only and subject to approval by the conference organizing committee.

The Conference will not assume any indebtedness in connection with a gift, other than what is specified in the sponsorship levels document.
