Imaging Cores, Biomedical Research Laboratory – MRI Small Animals

Imaging Cores, Biomedical Research Laboratory – MRI Small Animals does small animal MR and PET/MR imaging.

The Lab is equipped with a 7T Bruker Small Animal MRI as well as a Cubresa PET insert for MRI.

The Lab regularly works with researchers in the University of Arizona's College of Science, College of Medicine, and College of Pharmacy, as well as industry partners dedicated to research and development in biomedicine and oncology.
