Kickstarting Your Research at UA Panel Discussions

Select one of the following breakout sessions featuring UA Research Resources to best fit your needs as you begin your career with the UA, and engage in live Q&A

- Introduction to Research at UA
This session will help you begin to understand the wealth of resources available to support your research and scholarship at UA. Attend to meet the people who can help you find funding opportunities, submit proposals, manage your awards, build your research team, and partner in helping ensure you're conducting your research and scholarship in an ethical, safe, and compliant manner.
- Research with Human & Animal Subjects
This session is for people who conduct research with human and animal subjects in the life sciences, biomedical fields, and social and behavioral sciences. Attend to meet the people who will help you apply for and secure approved protocols from the Institutional Review Board and Institutional Animal Care and Use Committee. Additional panelists will be on hand to answer your questions about applying for funding, hiring students and staff, and managing your awards.
- Expanding the Impact of Research through Commercialization & Startups
This session is for researchers who have an entrepreneurial interest in applying for patents, creating startup companies based on their university research, and collaborating with industry partners. Attend to meet the people who can help support those interests and learn about the many exciting opportunities at UA to be on the cutting edge of innovation and economic impact.
